

# Jerry Downing Graduated With Honors from UCSB

Jerry Downing, son of Mr. and Mrs. Alex Bates, 17039 Glenburn, was graduated Saturday with highest honors from the University of California, Santa Barbara, with a bachelor of arts degree. His major is physical education.

Of the 322 graduates, Jerry was rated one of the top four academically. He recently received an Honor Key award, among the most valued awards made in recognition of outstanding service to the student body.

Jerry is a member of Kappa Delta Pi, national honorary education fraternity whose membership is selected on academic standing, character, and promise of successful teaching; and of the California Club whose membership is appointed by Dr. Robert Gordon Sproul, university president, and whose purpose is to foster understanding among students on the various university campuses.

President of Block 'C', college letterman's club, Jerry was captain of the track and cross-country teams. He is a member of the California Association of Health and Physical Education and Recreation, national organization of physical education teachers.

Jerry has served as resident assistant in charge of Sequoia Hall during his senior year, having 50 boys under his supervision.

A 1931 graduate of Torrance High school, Jerry was president of his senior class, vice-president of the student body, and a member of the California Scholastic Federation. He was a Bank of America Achievement winner for this district.

This summer Jerry will be a counselor at the Camp Max Siram camp for boys, and has accepted a position as junior high physical education teacher in the Santa Barbara schools next year.

# YOUR NEW HOME...

## WILL IT OUTLAST THE MORTGAGE?

Nearly every family that buys a new home assumes a mortgage—one that will run for as long as 15, 20, or 30 years. Good, sound construction is the only assurance that YOUR home will still give service when the final payment on the mortgage is made.

The Chinese had a wall

Generations slaved away their lives to build it. The wealth of kings and the skill of engineers were poured into its construction. And, when it was finished, it roamed a vagabond course over the mountains for hundreds of miles, like a great grey dragon breathing defiance from every segment of its poised body.

It was a peace-loving nation's way of telling the world that she wanted no more war... and the men who built it actually believed it would protect them from aggression.

The Americans have a hydrogen bomb. It, too, is a peace-loving nation's way of telling the world that she wants no more war. And millions actually believe it will protect, not only America, but the whole world from aggression.

The only sure protection against war is the fortress that saves mankind from the evils in man's hearts which foment war. That fortress is the Christian religion. But even our religion is not a sure protection until it reaches the hearts of all men.

Support your church. Help it build the foundations of Peace in your own heart. And with your prayers and your purse advance its tireless efforts to build those same foundations in the hearts of all men.

### THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
